

AIA E202-2008 Building Information Modeling Protocol Exhibit—Suggested Revisions:

Protocol:

Article 2.1: At the end of the provision, add “Each Model Element Author shall only be responsible for the accuracy of the information provided and/or inputted by the Model Element Author and its consultants in accordance with the generally accepted standard of care applicable to each Model Element Author. It is understood and agreed that each Model Element Author has no control over and is not responsible for the accuracy or completeness of any information inputted by any other Model Element Author.”

Model Elements:

Article 4.1.3: In line 3, after “Model Users shall” insert “waive any and all claims against the Model Element Author and”.
