

Improving cyber resilience

Cutting edge risk management services to help build resilience and minimize cyber risk.

Our global Cyber Services Snapshot report reveals that the **complexity of cyber claims continues to increase**, and the costs can be high.

Clients are demanding **help** on how to improve their cyber defences against the constant threat of a cyberattack.

Your cyber resilience action plan is here:

You asked for even **more** solutions, and we've delivered.

Regardless of where your clients are on their cybersecurity journey, our newly upgraded cyber resilience offerings will accelerate their knowledge and understanding to minimize their risks.

All US clients with Beazley Breach Response (BBR), InfoSec, and MediaTech policies are eligible.

\$4.9M

average cost of data breach caused by phishing*

82%

of cyber incidents caused by human error**

* Cyber policyholders with annual revenue of \$35M or more

How to schedule a risk management offering for a cyber client

For further information or to start scheduling a risk management offering, please email us at cyber@beazley.com

Please note that risk management offerings such as tabletops or workshops are to be scheduled in advance to allow time for all the necessary stakeholders to be included. For those, a policyholder must have a scheduled date on the calendar 90 days before the policy expires in order to have the risk management offering covered under their policy. If the risk management offering is cancelled or postponed, it will be counted under the next policy period.
