

Beazley Turnkey Reinsurance

Cyber

Why is breach response and cyber liability coverage needed?

Most General Liability and Business Owners policies exclude cyber liability and data breach exposures from coverage. Beazley's turnkey reinsurance bridges this gap in coverage by partnering with insurance companies and white labelling our award winning breach response and cyber liability coverage.

Data breaches and ransomware pose a growing threat to businesses of all sizes. Customers and employees entrust organizations with their personal or private information, exposing businesses to substantial expense and liability if data is lost, stolen or compromised. Even more damaging than the direct costs associated with a breach may be the damage to a business's reputation and loss of client trust.

Partnering with Beazley provides your policyholders a solution that helps create a pathway out of a stressful event.

The Beazley difference – services/claims

At Beazley, we have invested in a service-based solution.

- Beazley Breach Response (BBR) Services
 - Utilizing BBR Services does not erode the Insureds limit of liability
- BBR Services exclusively assists Beazley clients successfully manage their data and security breaches
- Dedicated in-house claims team.

Beazley's claims team has been at the forefront of defending clients in the developing and evolving legal arena of privacy class actions and regulatory investigations arising from data breaches. Our claims team understands the emerging liabilities and complexities of this world and partners with your policyholders to secure the best outcome in the event of a claim.

Target risks

- GL premium/BOP premium of \$25,000 and below
- Insureds with revenue up to \$10,000,000.
